

The House Throwing Champion

by Nikson Drazic

BAMM! The gun had been shot. Nikson had five seconds to throw the house. **Four**; he was spinning and spinning, **Three**; he was getting ready to let go of the chain, **Two**; he closed his eyes, **One**; he threw it as hard as he could! It landed just off the record, (1.76 miles)! He was going to the CHAMPIONSHIPS!

Nikson had the fortnight to train and pack for his trip to Darwin. After two weeks of intense training it was time to leave for his event. When he arrived at the stadium he saw Darko the Mighty and Liam the Crusher, they both had reached the record (1.77 miles)! Nikson viewed his phone to check what the time was, 8:45. He had one and quarter hours until it started. Nikson checked his messages. There was one from Bob, it was about a game of footy (Collingwood Vs Melbourne) at ten o'clock! But that's when his championships started! Nikson was sad as he wanted to watch it but he couldn't. There was one hour to get to the hotel and unpack!

When he returned Srdjan was having his turn. He got 1.75 mile. "Up next is Liam the Crusher" boomed the speakers BAMM! Liam the Crusher started to do a weird technique, 4; he started spinning, 3; the house was rising off the ground, 2; he tripped over, 1; he fell on his face, "Times up", called the referee 'you're out". Liam got really angry and threw the house at the ref but it missed.

Nikson went outside to get some fresh air. When he came back in he heard the crowd cheering. Darko had beaten the record by point one of a mile. Nikson was up next, he didn't care if he won or lost at least he got to do what he loves. BAMM! He got into his position, 4; he was spinning and spinning, 3; the house began to rise, 2; his hands were slipping and, 1; he launched it as far as he could! It went around the world and landed in the middle of Collingwood Vs Melbourne and squashed the entire Collingwood team and they had to forfeit!

Nikson had won and nobody could be bothered to measure the winning distance!
